

PRESS RELEASE

MENTAL HEALTH AND SOCIAL WORK SERVICES PROVIDED BY INGLEWOOD & DISTRICTS HEALTH SERVICE

A meeting was held on 29 May 2017 between the Murray Primary Health Network (PHN), Inglewood and Districts Health Service (IDHS), Loddon Shire, Northern Districts Community Health and Loddon Healthy Minds Network to discuss the extension of the exit time for the Mental Health Support and Social Work from the end of June 2017 until the end of September 2017.

All present agreed that these services are vital to the Loddon and Gannawarra communities and agreed to work collaboratively to find a solution.

Members from Murray (PHN) advised that they would develop a plan which would use data and information provided by those present and other health studies to develop a transition strategy and to shape the services for the future.

Any queries re the services provided at IDHS should be directed to the Chief Executive Officer
